NEW QUESTION: 1

- A. Option A
- B. Option C
- C. Option D
- D. Option B

Answer: B

NEW QUESTION: 2

Stephanie works as senior security analyst for a manufacturing company in Detroit. Stephanie manages network security throughout the organization. Her colleague Jason told her in confidence that he was able to see confidential corporate information posted on the external website <http://www.jeansclothesman.com>. He tries random URLs on the company's website and finds confidential information leaked over the web. Jason says this happened about a month ago. Stephanie visits the said URLs, but she finds nothing. She is very concerned about this, since someone should be held accountable if there was sensitive information posted on the website.

Where can Stephanie go to see past versions and pages of a website?

- A. Stephanie can go to Archive.org to see past versions of the company website
- B. AddressPast.com would have any web pages that are no longer hosted on the company's website
- C. If Stephanie navigates to Search.com; she will see old versions of the company website
- D. She should go to the web page Samspace.org to see web pages that might no longer be on the website

Answer: A
